

EMPOWER-A-CHILD Q & A

Empower-a-Child programme

What does 'Empower-a-Child' provide?

Your support enables a child to receive the continuous education, nutritious meals, basic health and hygiene and quality holistic care which he/she needs to develop academically and socially to break out from the cycle of poverty.

Why 'Empower-a-Child' at Dignity for Children Foundation?

As a direct service provider rather than a fundraising agency, we know each child entrusted to us and are unequivocally committed to his/her success in breaking out from the cycle of poverty. Our experience with hundreds of children since 1999 assures us of the success of our programmes. Their continuity depends however, on the regular support and generosity of donors who share our vision of transforming underprivileged children through quality education, to becoming valuable members of their community.

How is my donation spent?

100% of your monthly donation will be applied directly to benefit a child. Although we pair a donor to a child, your contribution will be pooled with other contributions to fund the holistic care and quality education provided to the children at our learning centre.

What will I receive?

You will receive:

- A photo and a brief profile of your child
- 2 academic progress reports of your child in each year
- Our Annual Report

Can I choose a child?

As many children may already be dealing with feelings of rejection, our practices must be patently non-preferential and non-discriminatory. So that opportunities are provided equally to all the children, we will pair a donor with a child according to our allocation system where each child is valued as much as another.

How long does the Empower-a-Child programme last?

For a child to transit meaningfully into adulthood and become a contributing member of a knowledge based society, he/she must attain at least secondary and, if possible, tertiary education.

Who is eligible to visit?

As change takes time, a donor who has provided full support for a minimum of 6 months and is committed to full support for a child for a year may visit the child with whom the donor is paired.
